

## Retail and Restaurant POS Solutions Use Connected IO Products to Process Payments Anywhere

### Pop-Up Retailers and Restaurants Rely on Mobile POS Everyday

Business that operate outside a traditional building turn to ExaDigm for POS solutions that make it easy to process payments anywhere. With mobility, speed, and reliability as the cornerstones of its POS solution, ExaDigm needed a wireless solution that could deliver all three. [Additional content needed]

#### Solution

[Setup needed here] ExaDigm chose the Connected IO ER2000T–CAT1 and ER1000 routers to provide fast, dependable wireless service for its POS system. [Additional content needed]

#### Advantages

"Connected IO modems and routers allow us to reach out to hundreds of thousands of clients in the wireless connected market, a market expected to reach \$27B market in 2022. CIO hardware simply just works in the retail and restaurant small business market."

Bill Gao, COO, ExaDigm

**Connected IO ER2000T**  
CAT 1 Wi-Fi Router with  
4G LTE/3G Cellular Modem

Featuring an innovative design and remarkably small footprint, the ER2000T is a perfect fit for even the most challenging product requirements.

**Connected IO ER1000**  
CAT 3 4G LTE/3G/2G Router

Ideal for surface-mounted applications, the ER1000 features a high-speed wireless router and mul band cellular modem in a single, ruggedized metal enclosure.
